1) The answer to RFI #1 is provide on the attached RFI form.

END OF ADDENDUM #3

Virginia Tech Hitt Hall and Intelligent Infrastructure Complex Design Build Project
Criteria Consultant
RFP 208-L00049-001

REQUEST FOR INFORMATION FORM (RFI)
(Use separate Form for each question submitted)

DEADLINE FOR SUBMITTING QUESTIONS IS: Monday 11/20/17 (5:00 pm)

Date: 11/20/17

The following question references Section/Page of the RFP : VI - Proposal Requirements

As part of this scope of work, since we are not producing construction documents or stamping drawings, do all consulting engineers need to be registered in Virginia at the time of submission? If the consulting engineer does need to be registered in Virginia, would it be acceptable if they have state registration before the start of the project?

RESPONSE - Per the RFP, CPSM and instructions for completing the AE 1-6 forms, all architects and engineers must be licensed in the state of Virginia. The license numbers must be included in the RFP responses and therefore have to be obtained prior to submittal of the proposals.

All responses to questions will be made by Addendum.
